PROFILE

Final-year Software Engineering student and cloud enthusiast with expertise in designing, testing, and maintaining software systems. Skilled in front-end technologies, problem-solving, and building dynamic web applications.

Experience

Web Development Trainee Intern, LETSGROWMORE

[Remote](#)

Apr 2024 — May 2024

- Gained hands-on experience with front-end technologies, building dynamic and responsive web applications using HTML, CSS, and JavaScript.
- Sharpened problem-solving skills by working on real-world projects that bridged theory with practical application.
- Developed and deployed a dynamic calculator, a to-do list application, and a user-friendly registration form & Strengthened understanding of web development principles, focusing on usability and design responsiveness.

PROJECT

Dec 2024 — Dec 2024

E-commerce Platform Development

TECH USED : Django, Python, HTML, CSS, Bootstrap, JavaScript,

[VIEW](#)

- Built a full-stack e-commerce app with user authentication, product catalog, and order management.
- Leveraged Django & Python for secure and efficient data handling.
- Designed responsive templates with HTML, CSS, and Bootstrap for enhanced usability.
- Integrated media uploads, payment gateway, and shipment tracking via APIs

Aug 2024 — Aug 2024

Serverless-Web-Application-on-AWS

[VIEW](#)

TECH USED : AWS Lambda, Route 53, AWS S3, DynamoDB, AWS CloudFront

- Designed and implemented a serverless architecture leveraging AWS services, including Lambda, API Gateway, DynamoDB, S3, and CloudFront, for a scalable and cost-effective web application.
- Developed and deployed a RESTful API using API Gateway and Lambda to handle CRUD operations on a DynamoDB table, ensuring efficient data management.
- Hosted and served static files (HTML, CSS, JavaScript) via S3, while utilizing CloudFront for low-latency content delivery across global regions.

Jun 2024 — Jun 2024

Hotel Chain Management Network

[VIEW](#)

TECH USED : Cisco Packet Tracer, Firewalls, VPNs, Collaboration Tools

- Designed and implemented a scalable network architecture across multiple hotel locations using Cisco Packet Tracer.
- Enhanced network security by implementing firewalls and VPNs for secure communication.

EDUCATION

Jul 2021 — Jul 2025

Bachelor of Technology , Aliah University , Kolkata

CGPA 8.41

Computer Science and Engineering

Mar 2019 — Mar 2020

Higher Secondary Education , Khalsa High School

74 %

Science

SKILLS

Language : C++, C , Java, Python,
Framework : React.Js , Django , HTML, CSS,
CourseWork: SQL, Object-Oriented
Programming, Computer Networks, DSA,
DBMS, Operating System

Amazon Web Services, Microsoft Azure,
Cloud Computing, AWS Lambda, Route
53, AWS S3, DynamoDB, AWS
CloudFront, Cisco Packet Tracer

CERTIFICATION

CLF-02: AWS Cloud Practitioner
AZ-900: Microsoft Azure Fundamental
DSA: Data Structure & Algorithm

LANGUAGES

English
Highly proficient

Hindi
Native speaker

Urdu , Bengali
Basic

ACHIEVEMENT

Solved 150+ Coding Question [Leet-Code](#) , [GFG](#) , [HackerRank](#) [Self-Publish Author](#) [English Debate Winner](#)
